Coccothraustes coccothraustes is a widespread breeder across much of Europe, which accounts for less than half of its global breeding range. Its European breeding population is very large (>2,400,000 pairs), and was stable between 1970–1990. Although there were declines in a few countries during 1990–2000, populations were stable or increased across the vast majority of Europe, and the species remained stable overall. Consequently, it is evaluated as Secure.

Country	Breeding pop. size (pairs)	Year(s)	Trend	Mag.%	References
Armenia	830 – 3,300	01–02	–	0–9
