

THE IUCN RED LIST
OF THREATENED SPECIES™

Tringa stagnatilis (Marsh Sandpiper)

European Red List of Birds

Supplementary Material

The European Union (EU27) Red List assessments were based principally on the official data reported by EU Member States to the European Commission under Article 12 of the Birds Directive in 2013-14.

For the European Red List assessments, similar data were sourced from BirdLife Partners and other collaborating experts in other European countries and territories. For more information, see BirdLife International (2015).

Tringa stagnatilis (Marsh Sandpiper)

Table 1. Reported national breeding population size and trends in Europe¹.

Country (or territory) ²	Population estimate				Short-term population trend ⁴				Long-term population trend ⁴				Subspecific population (where relevant)
	Size (pairs) ³	Europe (%)	Year(s)	Quality	Direction ⁵	Magnitude (%) ⁶	Year(s)	Quality	Direction ⁵	Magnitude (%) ⁶	Year(s)	Quality	
Belarus	50-200	1	2001-2012	medium	+	25-186	2000-2012	medium	+	25-186	1980-2012	medium	
Estonia	5-20	<1	2008-2012	medium	-	20-50	2001-2012	medium	+	20-50	1980-2012	medium	
Finland	0-5	<1	2006-2010	medium	?				F	0	1980-2010	medium	
Latvia	5-20	<1	2012	medium	+	0-1900	2001-2012	poor	0	400-1900	1974-2012	poor	
Lithuania	10-20	<1	2008-2012	medium	+	900-1900	2001-2012	medium	+	900-1900	1997-2012	medium	
Poland	0-1	<1	2008-2012	medium	F	0	2001-2012	medium	+		1988-2012	medium	
Romania	0	<1	2008-2013	medium	?				?				
Russia	12,000-30,000	99	2005-2010	medium	?				-	5-30	1980-2012	poor	
Sweden	0-2	<1	2008-2012	good	0	0-200	2001-2012	good					
Ukraine	0-30	<1	2000	poor	F	10-20	1998-2010	poor	?				
EU27	20-70	<1		Increasing									
Europe	12,100-30,300	100		Unknown									

¹ See 'Sources' at end of factsheet, and for more details on individual EU Member State reports, see the Article 12 reporting portal at <http://bd.eionet.europa.eu/article12/report>.

² The designation of geographical entities and the presentation of the material do not imply the expression of any opinion whatsoever on the part of IUCN or BirdLife International concerning the legal status of any country, territory or area, or of its authorities, or concerning the delimitation of its frontiers or boundaries.

³ In the few cases where population size estimates were reported in units other than those specified, they were converted to the correct units using standard correction factors.

⁴ The robustness of regional trends to the effects of any missing or incomplete data was tested using plausible scenarios, based on other sources of information, including any other reported information, recent national Red Lists, scientific literature, other publications and consultation with relevant experts.

⁵ Trend directions are reported as: increasing (+); decreasing (-); stable (0); fluctuating (F); or unknown (?).

⁶ Trend magnitudes are rounded to the nearest integer.

Trend maps

A symbol appears in each country where the species occurs: the shape and colour of the symbol represent the population trend in that country, and the size of the symbol corresponds to the proportion of the European population occurring in that country.

KEY

- | | |
|----------------------------------|----------------------------------|
| ▲ Large increase ($\geq 50\%$) | ▼ Large decrease ($\geq 50\%$) |
| ▲ Moderate increase (20–49%) | ▼ Moderate decrease (20–49%) |
| ▲ Small increase (<20%) | ▼ Small decrease (<20%) |
| ↑ Increase of unknown magnitude | ↓ Decrease of unknown magnitude |

- Stable or fluctuating
- Unknown
- Present (no population or trend data)
- ✗ Extinct since 1980

Each symbol, with the exception of Present and Extinct, may occur in up to three different size classes, corresponding to the proportion of the European population occurring in that country.

- ↑ Large: $\geq 10\%$ of the European population
- ↑ Medium: 1–9% of the European population
- ↑ Small: <1% of the European population

The designation of geographical entities and the presentation of the material do not imply the expression of any opinion whatsoever on the part of IUCN or BirdLife International concerning the legal status of any country, territory or area, or of its authorities, or concerning the delimitation of its frontiers or boundaries.

Figure 1. Breeding population sizes and short-term trends across Europe.
