

Appendix 4. The bird species that have a globally restricted range (<50,000 km²) in Africa, and the Endemic Bird Areas and Secondary Areas in which the species occur (Stattersfield *et al.* 1998¹).

An Endemic Bird Area holds two or more restricted-range species (their combined ranges define the EBA geographically).

A Secondary Area generally holds only one restricted-range species (the range of which defines the Secondary Area geographically).

EBA code	Endemic Bird Area (EBA)	Scientific name	English name	EBA code	Endemic Bird Area (EBA)	Scientific name	English name				
078	Cape Verde Islands	<i>Apus alexandri</i>	Alexander's Swift	085	Cameroon and Gabon lowlands	<i>Hirundo fuliginosa</i>	Forest Swallow
