

Location of Important Bird Area that contains an area which qualifies as a Ramsar Site in Central African Republic

Designation progress

An area within one Important Bird Area qualifies currently as a Ramsar Site in Central African Republic, but has not been designated as yet.

Summary of Important Bird Areas that contain areas which qualify as Ramsar Sites in Central African Republic

IBA code	IBA name	IBA area (ha)	Ramsar Site name	Ramsar Site area (ha)	Ramsar criteria			
					2	4	5	6
Ramsar designation of IBA lacking (1 IBA)								
CF008	Dzanga-Ndoki National Park	457,900			●			
Grand total					1	-	-	-

For the full details of each site, including bird populations, see Fishpool and Evans (2001) and the Data Zone at www.birdlife.net by 2003. See 'Identifying potential Ramsar Sites' (p.11) for a description of the site- and species-selection procedure and the method for evaluating adequacy of Ramsar coverage that have been used in this report.

Threatened species

Within the IBA that contains an area that qualifies as a Ramsar Site under Criterion 2, one wetland-dependent species of global conservation concern occurs regularly in significant numbers.

Summary of the occurrence of wetland species of global conservation concern within the selected IBA

Species name and global threat status (IUCN 2000; see p.147)

IBA code	Dja River Warbler <i>Bradypterus grandis</i> (VU)	Grand total
CF008	●	1
Grand total	1	1
